Specialized in Next Web Development, focusing on dynamic websites and mobile apps.

IT management

Secondary school

Graduated Jun. 2022

Sint-Paulusschool Campus College Waregem

Work experience

Student grocery clerk

Okay

Apr. 2021 - Present

Zulte

Enjoying a variety of tasks and working with a great team at Okay in Zulte, makes it an amazing experience.

Frontend developer

Geniaal

Aug. 2024 - Sept. 2024

Ternat (worked remotely)

Worked at a startup in summer 2024, building the frontend for an AI chatbot. This first student job as a frontend developer allowed me to showcase my skills and gain valuable experience.

Reference Geniaal

Phone: +32 473 74 61 79

Email: peter.vandercruys@geniaal.ai

Assistance in warehouse

Nutrika

Jul. 2023 - Aug. 2023

Zulte

Assisted with moving everything to their new warehouse, which was greatly appreciated.

HTML, CSS, Javascript, Typescript, Nextjs, Tailwindcss, React, Vuejs

Backend development

Azure, MySQL, MongoDB, ASP.NET

Mobile development

Flutter, Firebase, React Native

Other

Eager to learn new frameworks & technologies

Projects

AI-Powered Voice Recipe App

Developed an AI-powered app for a research project, allowing users to get recipe suggestions based on voice input.

Bike Blitz

Created a spinning bike race game for a group project, where players raced to the finish line. The game was accessible on our website, and bike data was collected via Bluetooth.

Kids-BESTest

Developed a mobile app with Flutter and Firebase in collaboration with the University of Hasselt to digitalize a clinical test battery.
